

LAUNCH ALERT

Please join us once again as the **Southern California Rotorcraft Association** and regional pilots / flight crews & ground ops teams discuss tactics to safely protect our community during what the future challenging fire seasons.

For many years SoCal Rotors (formerly PPHA) has been the focal point for communications / tactics that are critical to safe flight operations during airborne FIRE suppression operations in Southern California. **EVENT IS ADMISSION FREE**

Topics for discussion include:

Working flight operations in unpredictable weather & demanding circumstances require clear & direct communications among FIRE, ENG & LEO teams .

- Tactical communications during FIRE OPS
- Profile crucial frequency info used by fire/ aviation crews for information that is critical to successful collaboration.

Speakers will focus on :

- Recent changes to operational guidelines
- Q&A segment & lunch

NOTE: Space is limited. All attendees are requested to RSVP to: Rsvp@SoCalRotors.org no later than Monday, May 9, 2025 !

We hope to see you there! 

Steve Goldsworthy, President
SoCal Rotors Association
